

The Guarantee(d) ticket to a  
Better Life with  
Nature and Food-Security is  
about to be

# SOLD OUT!!!

"This might go  
down in history as  
coolest get-away  
**GREEN-LAND**  
to ever exist."

# What makes this project EXOTIC

Unlike a regular farmland that see on your long-drives, you will own tomorrow a green-land which will be seated at a place overlooking the North Cauvery Forest Reserve.

You might want to read that phrase three times more....and then MORE.

Because it's a RESERVE forest which will remained un-touched by people till the time of your children and their children and then theirs.

**H**ow many people you know own a land which allows them to wake up in the morning and can walk outside their door to have a view of a whole reserve forest!

Yes, NONE!

The "The One Acre Farms" has sold many farm-lands to it's smart and nature loving customers, but this is the first time we have a project which we wish that we can keep for ourselves. It's so beautiful that you might want to come look it up for yourself!

# What happens to your life if you grab this RARE opportunity:

You will WIN the jackpot of owning a piece of fortune that is so rare to find.

You will WIN an opportunity to provide your family with the food-security that you always wanted to provide. ( You might just become the person to save your family in a way)

**Y**ou will LOSE out on the once in a life-time opportunity to own something so rare that the only feeling you'd probably have is regret.

You will LOSE out on the experience to bringing your family every weekend to a vacation in a land primed of the nature.

You will LOSE out on sleep every night when you realise the once in a life-time opportunity to own something so priceless.

You will become a part of the rare group of Nature who also take action.

- Reasonable Price
- Guarantee of Satisfaction
- Reliability
- Exotic location
- You'll be a part of a nature loving Community
